Management of personal information

Japanese Society for DNA Polymorphism Research (JSDPR) manages personal information with responsibility and uses personal information within an appropriate range for management of the society, and list-of-names distribution to the members. Moreover, in order to make the management of the society smooth, personal information may be opened to the councilors. JSDPR may deposit personal information required for business, when JSDPR commissions a part of society's work to the affiliate companies. In addition, when disclosure, correction or deletion of personal information is requested, or the information from JSDPR is unnecessary, please contact the Branch office.
